

Attestation

Byggvarubedömningen

On 20 August 2020, Eurofins Product Testing A/S received a sample of a paint with the product name:

COLOURS FOR LIFE paint No. 516 / 517

supplied by

AURO Pflanzenchemie AG

The emissions of organic compounds from the sample were measured in accordance with the relevant ISO 16000-3, -6, -9 and -11 and EN 16516 in the latest versions (See report No. 392-2020-00356601_A_EN).

The test results of the tested product indicate that the product qualifies for Byggvarubedömningen's criteria for chemical content and lifecycle aspects, Version 5.0 specifications on VOC emissions by complying with:

Criteria 6.2 Assessment of emissions for the recommended level:

Evaluation of the test result according to the recommended level:

- Carcinogenic substances were not detectable after 28 days.
 - The sum of VOC ("TVOC") after 28 days was below the limit of 100 µg/m³.
 - No components with an EU-LCI value showed emissions above this EU-LCI value after 28 days.
